DETAILED ACTION

1. The amendment filed on 03 June 2005 has been filed and made of record.
2. Claims 1 and 4-17 have been presented for examination.

Terminal Disclaimer

3. The terminal disclaimer filed on 03 June 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S.

Application Number 09/728,989, currently U.S. Patent No. 6,892,303, has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

4. Claims 1 and 4-17 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The claims 1 and 4-17 are directed to obtaining a virus-free certificate for a file. As noted in the Applicant's arguments, the prior art does not disclose selecting a certificate authority to generate a virus-free certificate for the file, wherein the certificate includes a list of the anti-virus programs run on the file. The closest available prior art is U.S. Patent No. 6,892,303, which has common inventors, Jean-Francois LePennec and Olivier Hericourt, and a common assignee, International Business Machines Corp.

6. Since no teachings or motivation can be found of obtaining a virus-free certificate for a file, claims 1 and 4-17 are therefore novel and non-obvious.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
